DISCLAIMER

IMPORTANT – YOU MUST READ THE FOLLOWING BEFORE CONTINUING:
The information contained in this presentation has been prepared by Quimbaya Gold Inc. ("Quimbaya" or the "Company") and contains confidential information pertaining to the business, operations, assets and subsidiaries of the Company. The information contained in this document (a) is provided as at the date hereof and is subject to change without notice, (b) does not purport to contain all the information that may be necessary or desirable to fully and accurately evaluate an investment in the Company and (c) is not to be considered as a recommendation by the Company that any person make an investment in the Company. Any forwarding, distribution or reproduction of this presentation in whole or in part is unauthorized. Nothing contained herein is, or should be relied on as a promise or representation as to the future performance of the Company. Unless otherwise noted, all information contained herein is provided as of the date hereof and is subject to change without notice. This presentation does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction to any person to whom it is unlawful to make such an offer or solicitation in such jurisdiction. **This presentation is not, and under no circumstances is to be construed as, a prospectus, an advertisement or a public offering of the securities of the Company in Canada, the United States or any other jurisdiction. No securities commission or similar authority has reviewed or in any way passed upon this presentation or the merits of the securities described herein, and any representation to the contrary is an offence. The information provided in this presentation is not intended to provide financial, tax, legal or accounting advice. Each purchaser should perform and rely on its own investigation and analysis of the Company, including the merits and risks involved.** The information regarding the Company contained in the presentation has not been independently verified. No representation or warranty, express or implied, has, is or will be made and no responsibility or liability has, is or will be accepted by the Company or by any of its affiliates or their respective directors, officers, employees, advisers or agents or any other person as to or in relation to the accuracy or completeness of the information contained in the Presentation, and no responsibility or liability is accepted for the accuracy or sufficiency of any of the information, for any errors, omissions or misstatements, negligent or otherwise, or for any other communication, written or otherwise, made to anyone in the presentation. Accordingly, none of the Company nor any of is affiliates nor their respective directors, officers, employees, advisers or agents shall be liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying on any statement or omission in the presentation. In furnishing the Presentation, none of the Company nor any of its affiliates nor their respective directors, officers, employees, advisers or agents undertakes any obligation to provide recipients with access to any additional information, to update any information or to correct any inaccuracies which may become apparent in the presentation, other than as required by applicable law. Accordingly, undue reliance should not be placed on any of the industry or market data contained in this presentation. Specifically, this presentation contains certain statements and information that are forward-looking statements or information within the meaning of applicable securities laws. See the "Forward-Looking Statements" disclaimer on this slide for more information.

Forward-looking Information
This presentation may contain "forward-looking information" which may include, but is not limited to, statements with respect to: timing of the receipt of governmental approvals and/or acceptances; targets, estimates and assumptions in respect of production and prices; amount and type of future capital expenditures and capital resources; mineral reserves and mineral resources; anticipated grades; recovery rates; future financial or operating performance; costs and timing of the development of new deposits; costs, timing and location of future drilling; production decisions; costs and timing of construction; operating expenditures; costs and timing of future exploration and environmental and reclamation expenses. There can be no assurance that future required regulatory approvals will be obtained or that anticipated transactions or proposed work and construction programmes will be completed satisfactorily. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries and/or its affiliated companies to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of the applicable public record document which the information is derived from and the Company has disclaimed any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.

Qualified Person
Mr. Ricardo Sierra, B.Sc. of Science a member of the Australian Institute of Mining and Metallurgy (MAusIMM 3078246),. is a "qualified person" as defined by National Instrument 43-101 – Standards for Disclosure of Mineral Projects, and has reviewed and approved the technical data and information contained in this presentation. The qualified person has verified the information disclosed herein and is not aware of any significant risks and uncertainties that could be expected to affected the reliability or confidence in the information discussed herein.

Third Party Information
This presentation includes market and industry data which was obtained from various publicly available sources and other sources believed by the Company to be true. Although the Company believes it to be reliable, the Company has not independently verified any of the data from third-party sources referred to in this presentation or analyzed or verified the underlying reports relied upon or referred to by such sources, or ascertained the underlying assumptions relied upon by such sources. The Company does not make any representation as to the accuracy of such information.

THE INVESTMENT OPPORTUNITY - HIGHLIGHTS

Quimbaya

World-class district — Segovia, Colombia:
Over 500 years of continuous mining history in one of most prolific gold belts globally

Multi-commodity targets — gold, silver & copper:
High-grade gold & silver vein systems alongside a copper porphyry target, offering diversified exploration upside

Significant land package — 70,000+ hectares,
100% owned: 3 projects with full ownership across the portfolio

Strong insider alignment — 23% ownership:
Alongside a team with a track record of involvement in multi-million-ounce gold discoveries in Colombia.

Fully funded for the 2026 exploration & drilling campaign,
with targets located in a district surrounded by existing gold production.

RIGHT DISTRICT
Early proof of a large-scale system.

FULLY FUNDED 2026
drill campaign with drilling to commence in Q2 2026 — the stage where outsized discoveries and returns can be created.

WHY COLOMBIA?

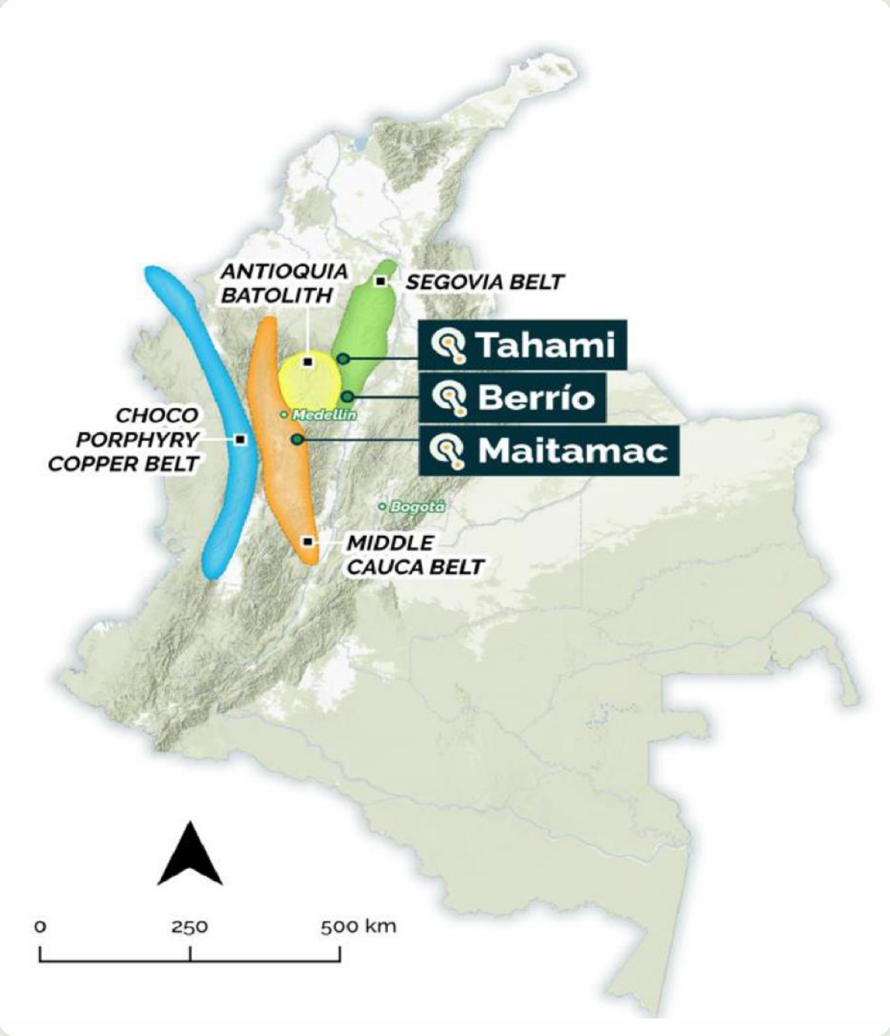
Quimbaya

One of South America's most underexplored frontiers:
The Andes Cordillera remains largely untested despite strong geological potential

Excellent jurisdiction, infrastructure & pro-mining culture:
Established mining regions supported by infrastructure, local expertise, and mining history

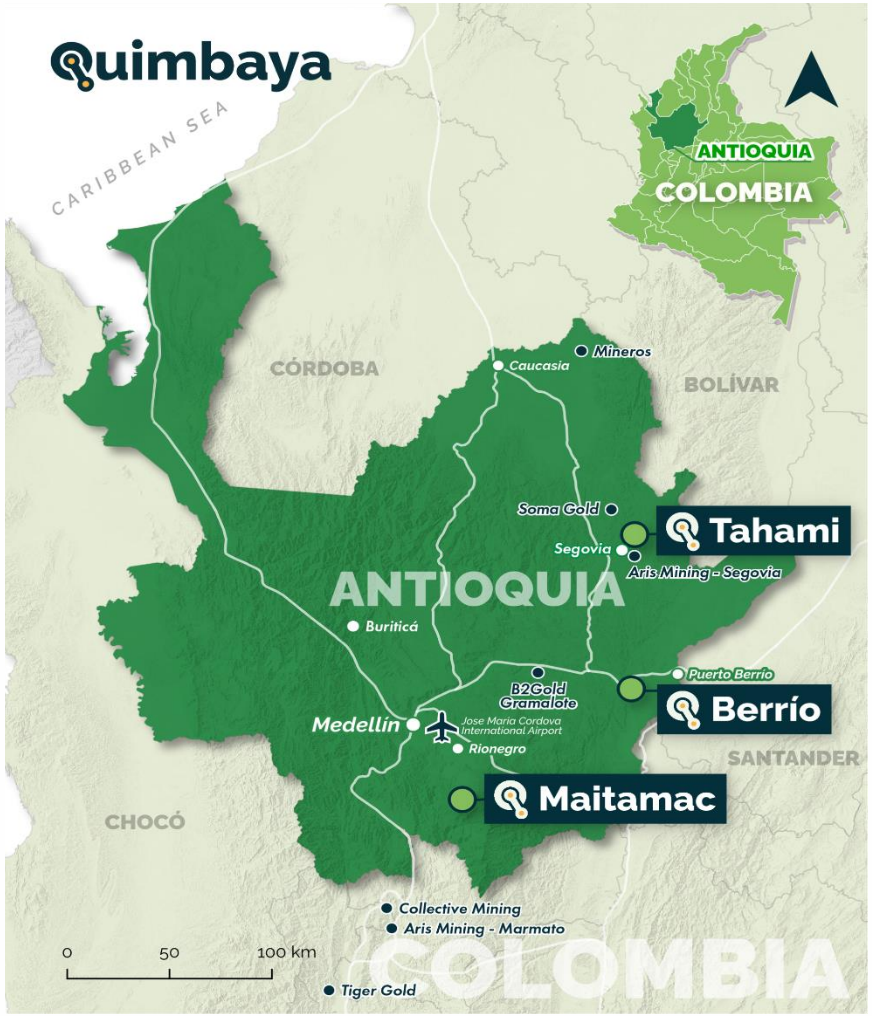
Year-round operations — no winter shutdowns:
Continuous drilling and exploration activity throughout the year

Large, young & skilled workforce with significant cost advantages:
Access to experienced mining talent, competitive labor cost environment, year-round operations, and established local supply chains supports highly cost-efficient exploration and drilling



QUIMBAYA ANTIOQUIA PORTFOLIO

Quimbaya



3 projects, 100% owned project pipeline, 73,000+ hectares

High-Grade Vein Target — Gold & Silver

Porphyry Target — Copper, Molybdenum & Gold

~50% of Colombia's gold production originates from Antioquia: The country's most prolific mining department, home to world-class operations and centuries of producing history

Established mining culture, historical mines, existing infrastructure and road accessibility

TAHAMI PROJECT — Dual Discovery Potential (Veins & Porphyry)

Large strategic land package in Colombia's Segovia mining district (~300K oz annual gold production)

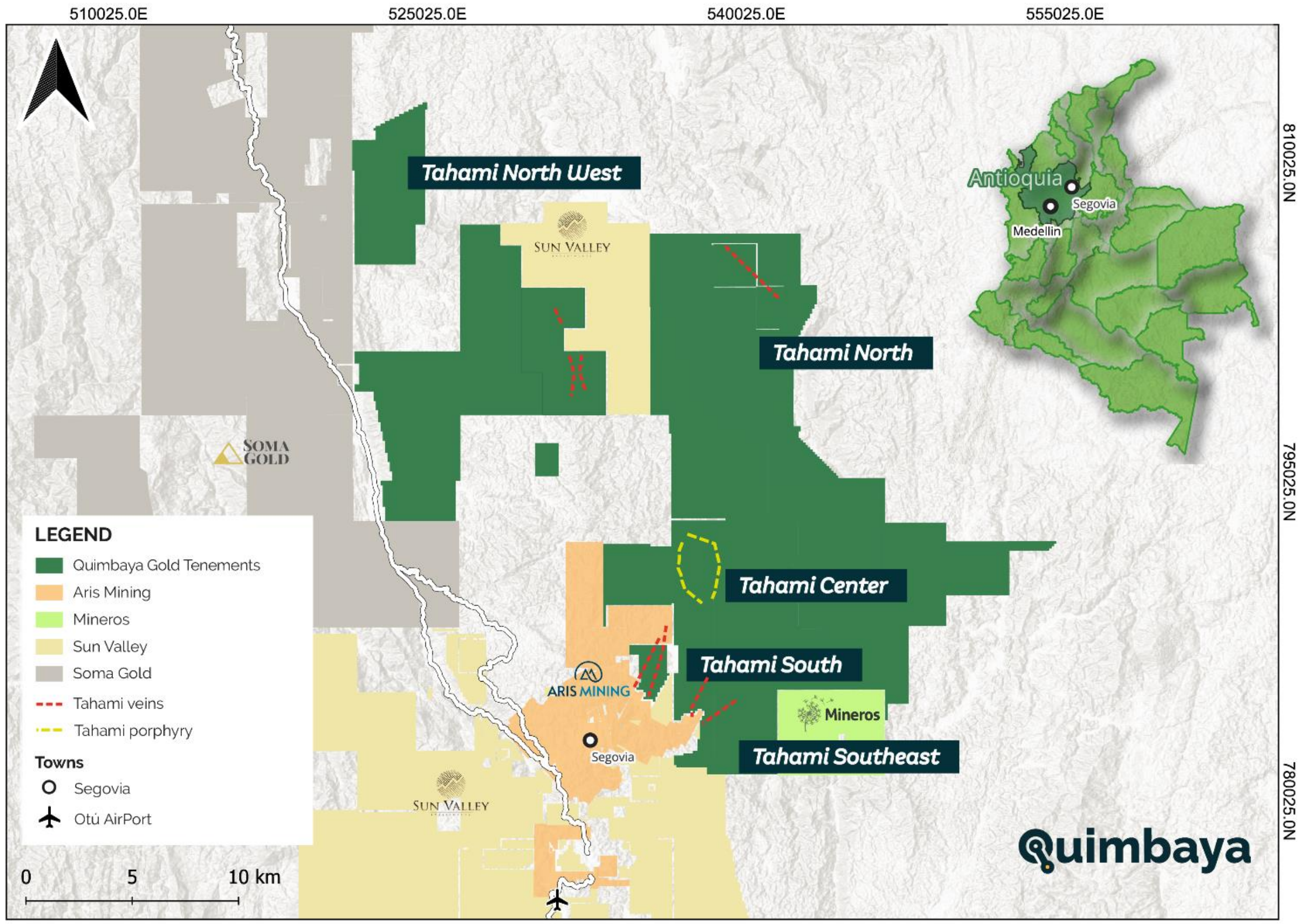
Positioned along strike from Aris Mining's high-grade Segovia operations

High-grade gold-silver vein systems identified and open for expansion

District-scale Cu-Au-Mo porphyry target emerging at Tahami Center

Rare combination of high-grade vein potential and large-scale porphyry upside

Surrounded by producing mines and established infrastructure



TAHAMI VEINS DISTRICT TARGET

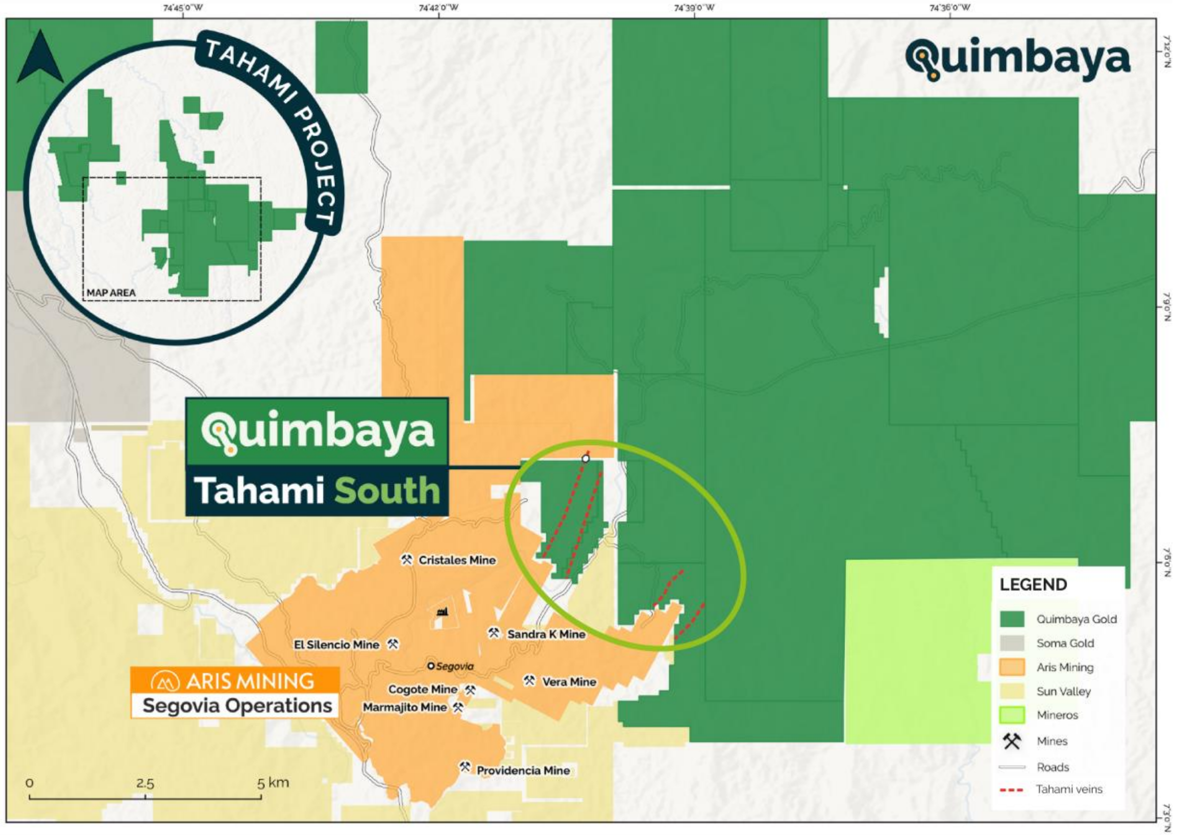
Quimbaya

High-grade Gold & Silver Veins Along Strike From Aris Mining's Segovia Operations

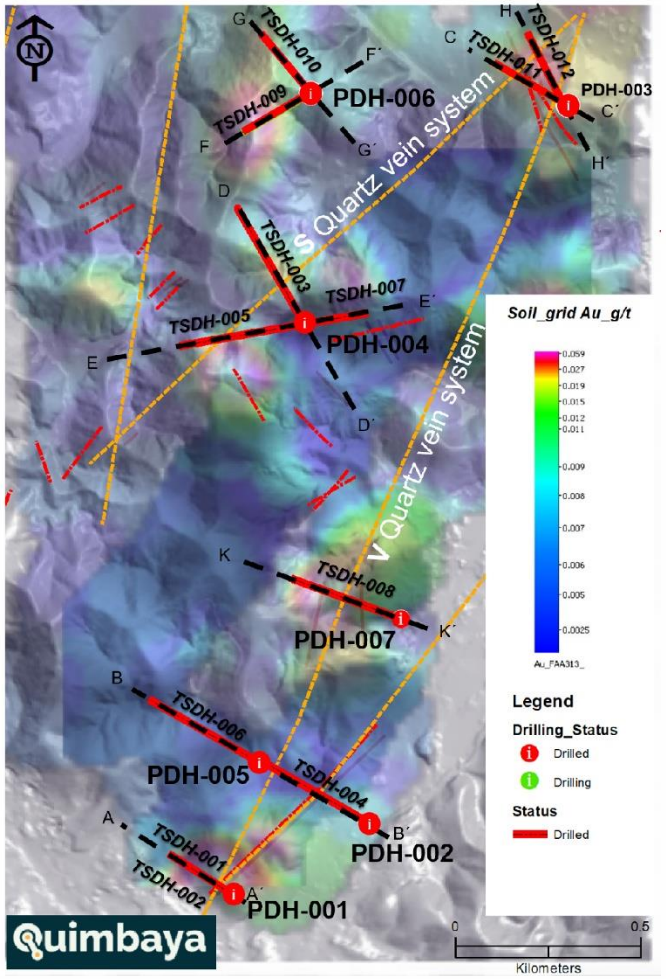
Tahami South & South East

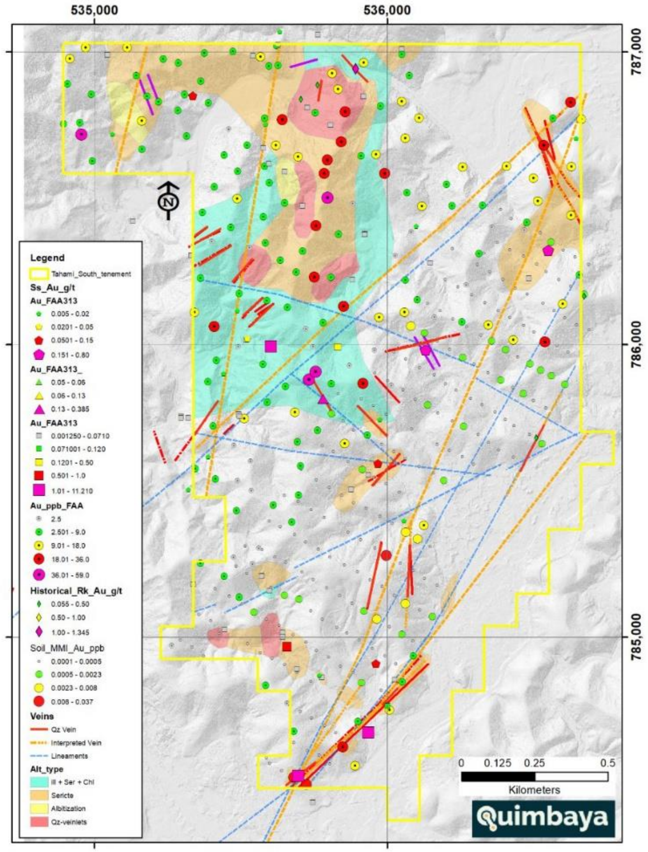
- **World-Class Neighbour:** Directly adjacent to Aris Mining's Segovia Operations, one of the world's highest-grade mines (>10 g/t Au est. annual production of > 250,000 oz p/a)
- **Strategic Location:** The only exploration company in a district surrounded by established producers.
- **Drill-Confirmed Vein Systems:** Two structurally distinct vein systems discovered by the inaugural drilling campaign 5,000meters — Vein S (1.6 km strike) and Vein V (2.2 km strike) — both open for expansion in all directions

HIGH-GRADE SYSTEM CONFIRMED.
Now expanding drill target area.



CONFIRMATION OF THE VEIN SYSTEM





- **First Drilling Highlights:**
  - **Vein S:** 1.0m @ **9.8 g/t AuEq** (0.77 g/t Au + 528 g/t Ag) - from 463m
  - **Vein S:** 0.9m @ **9.0 g/t AuEq** (2.57 g/t Au + 378.1 g/t Ag) - from 362m
  - **Vein V:** 0.9m @ **3.0 g/t AuEq** (1.03 g/t Au + 113.2 g/t Ag) - from 157m

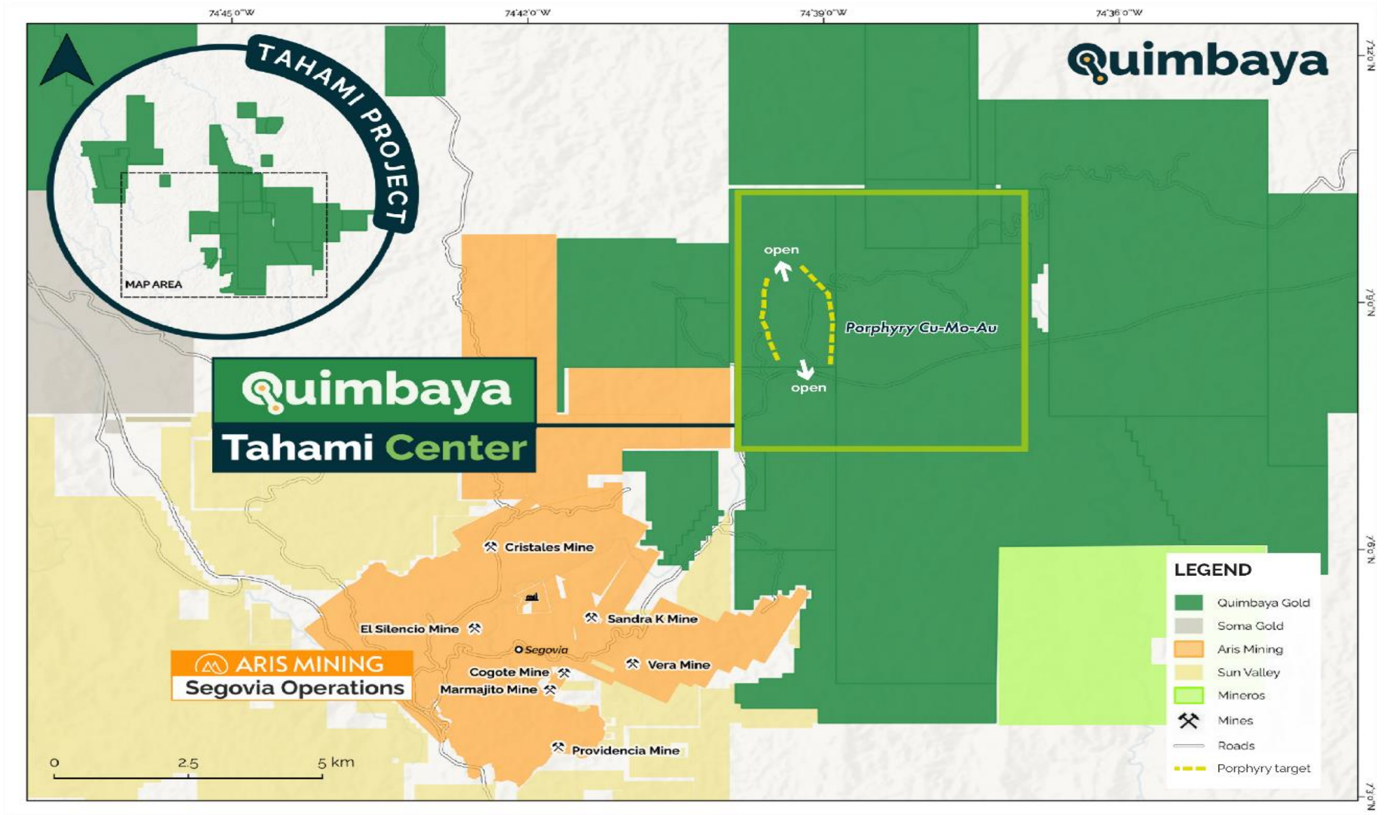
- **High-Grade Gold & Silver at Surface:** Rock sampling returned significant values up to 11.21g/t Gold and 23.3 g/t Silver, with multiple samples exceeding 1 g/t Au

- **Polymetallic mineralization** signature (Au-Ag-Pb-Zn) **consistent with Aris Mining Segovia project.**

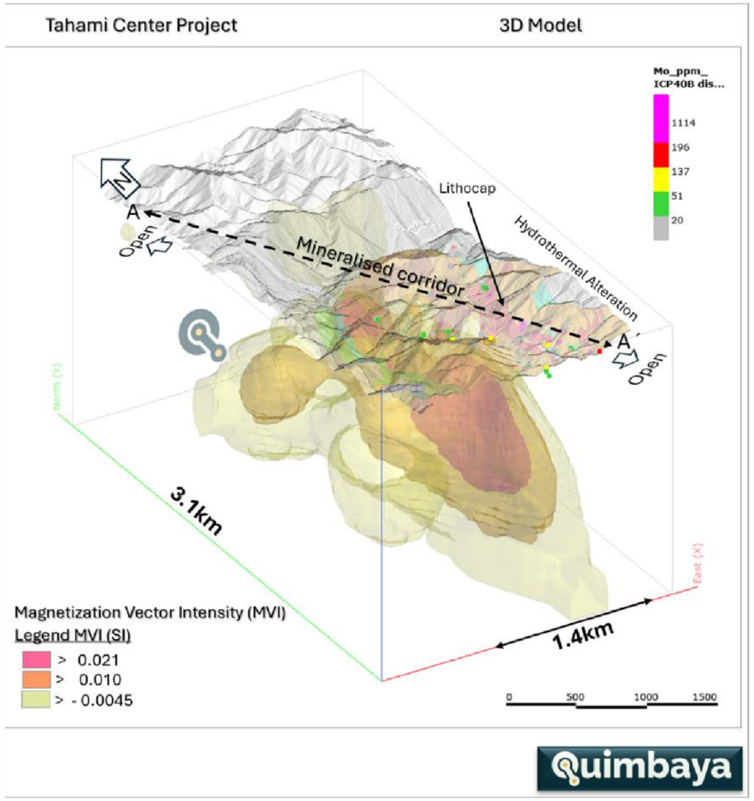
THE PORPHYRY TARGET – TAHAMI CENTER

Quimbaya

A Large, Preserved, & Vertically Zoned Copper-Molybdenum-Gold Porphyry System



THE PORPHYRY TARGET – TAHAMI CENTER



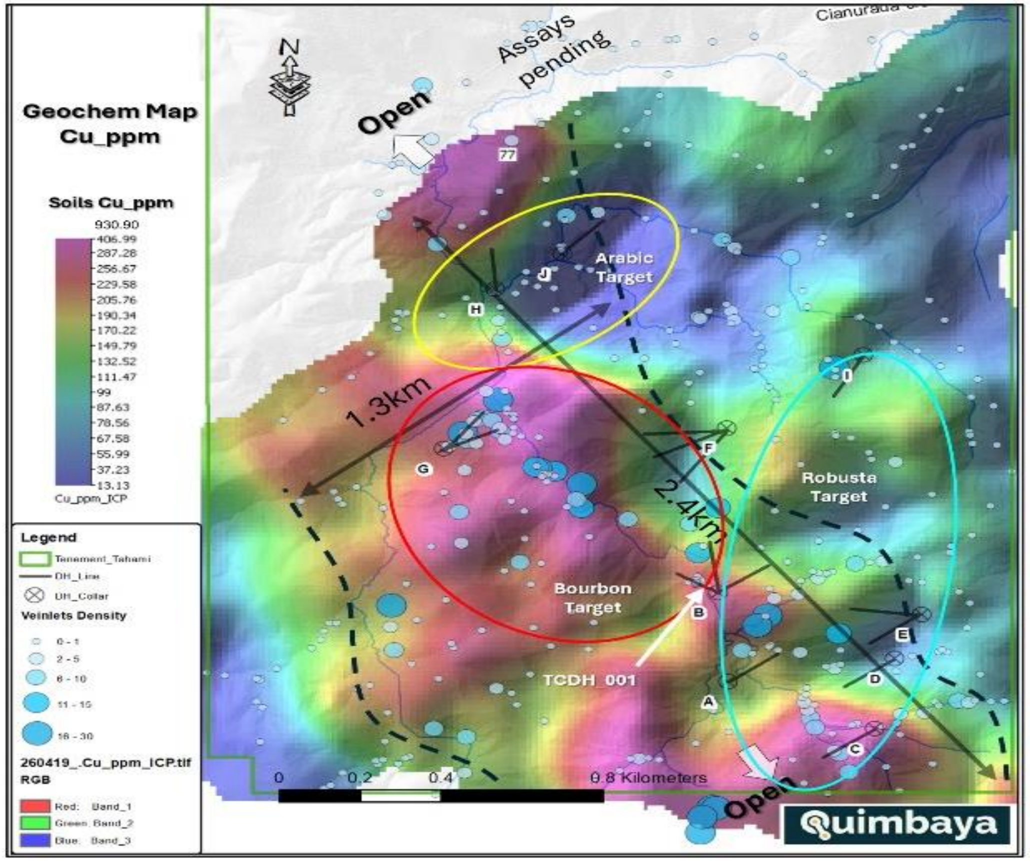
A Large, Preserved, and Vertically Zoned Copper-Molybdenum-Gold Porphyry System

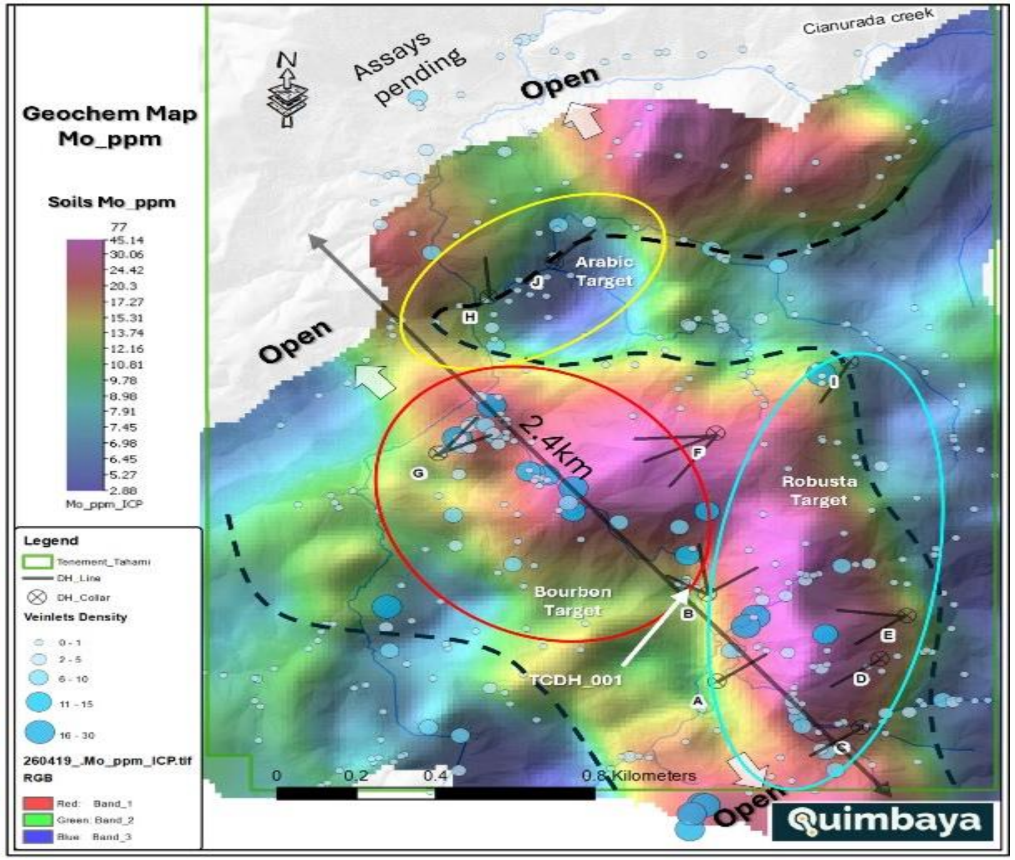
Highlights

- **Channel sampling: 0.8m @ 1.82% Cu, 1,047 ppm Mo (2.14% CuEq)** at surface, within a broader 1.35m composite at 0.53% CuEq
- 1.4 by 3.1-kilometer magnetic anomaly
- Independently confirmed by Dr. Redwood, Cu-Mo-Au core flanked by classic Pb-Zn halos across 3+ km of open strike: textbook porphyry geometry
- **Geophysics and geochemistry align perfectly** - stacked on top of each other, two independent datasets pointing to the same target; fault corridors control mineralization along 3+ km of open strike

TAHAMI GEOCHEMISTRY STRENGTHENS THE PORPHYRY MODEL

Soil samples up to **930.90 ppm Cu& 77 ppm Mo**





Porphyry Target – Tahami Center – Diamante Mine

Channel	Length (m)	Cu (%)	Mo (ppm)	CuEq (%)*	Best Sub-interval
CH_4132	1.35	0.391	438	**0.525**	0.8m @ 1.82% Cu, 1,047 ppm Mo (2.14% CuEq)
CH_4134	0.90	0.303	332	**0.404**	0.4m @ 0.65% Cu, 1,281 ppm Mo (1.04% CuEq)
CH_4133	1.06	0.356	82	**0.381**	0.56m @ 1.53% Cu, 127 ppm Mo (1.57% CuEq)
CH_5035	1.40	0.292	57	**0.309**	0.6m @ 0.83% Cu, 110 ppm Mo (0.86% CuEq)
CH_5033	7.40	0.134	352	**0.241**	0.5m @ 0.92% Cu, 674 ppm Mo (1.13% CuEq)
CH_5036	3.40	0.172	123	**0.210**	0.7m @ 0.84% Cu, 429 ppm Mo (0.97% CuEq)
CH_0303	2.10	0.123	301	**0.215**	0.7m @ 0.29% Cu, 565 ppm Mo (0.46% CuEq)
CH_4131	1.15	0.108	242	**0.182**	0.65m @ 0.144% Cu, 346 ppm Mo (0.25% CuEq)

Table 1 . *CuEq (%) = Cu (%) + Mo (%) × 3.059 | Cu US$4.25/lb, Mo US$13.00/lb
Equal recoveries assumed pending metallurgical testing. For illustrative purposes only

Quimbaya

2026 Q2

Tahami Project

Drill program starts
Tahami Center
Porphyry targets

Start drilling
Tahami South
Veins Targets

Prospection
New targets generation: geoquem, geophysics, & map recognition

All-In Drilling Cost ~$250 USD/Meter

KEY MANAGEMENT

Quimbaya

Alexandre P. Boivin

CEO & Director

- Over a decade of specialized experience in Colombian mining and corporate finance.
- Founded Quimbaya Gold in 2020, assembling a high-quality portfolio of assets, an experienced team, and strong partners.

Olivier Berthiaume

CFO

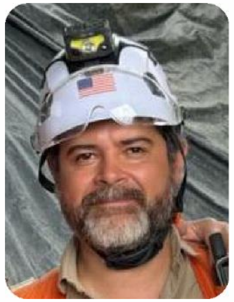
- Accountant with >12 years of experience specializing in early-stage, publicly listed junior companies in Canadian markets.
- Expertise in public market transactions, compliance, and corporate governance for exploration-stage ventures.

Sebastian Wahl

VP Corporate Development & Director

- 15+ years in metals trading and capital markets; co-founded Silver X Mining, growing it from exploration to silver production in Peru.
- Key executive in Latin American precious metals projects, building strategic networks across European and North American mining finance communities.

SILVERX



Ricardo Sierra

VP Exploration

- Over 20 years of geological experience in South America and Caribbean, with extensive work in Colombia for companies including Anglo American, Continental Gold, and Collective Mining.
- Served as Exploration Superintendent for Continental Gold's Buriticá Project, a multi-million-ounce gold deposit acquired for CA$1.9 billion by Zijin.

COLLECTIVE MINING

AngloAmerican

CONTINENTALGOLD

BOARD & TECHNICAL COMMITTEE

Dr. Stewart Redwood

Senior Technical Advisor

- Independent consulting geologist with global multi-metal expertise, former VP Exploration at Goldfields Colombia leading the 15 Moz Marmato project, and long-time senior advisor through its evolution into Gran Colombia Gold bought by Aris Mining..

Dr. Mark Cruise

Senior Technical Advisor

- Founder of Trevali Mining, grown from a single drill discovery into a global base metals producer with operations across the Americas and Africa and a peak market capitalization exceeding $1.5 billion.

- More than 30 years of global mining experience, including with Anglo American, spanning exploration, development, production, capital markets, and strategic growth across major mining companies and public resource issuers.

Pietro Solari

Director

- Senior banking and corporate finance executive with 40+ years' experience, including leadership roles at Merrill Lynch and Rothschild & Co, with a long track record of raising capital across Latin America.

Juan Sanchez

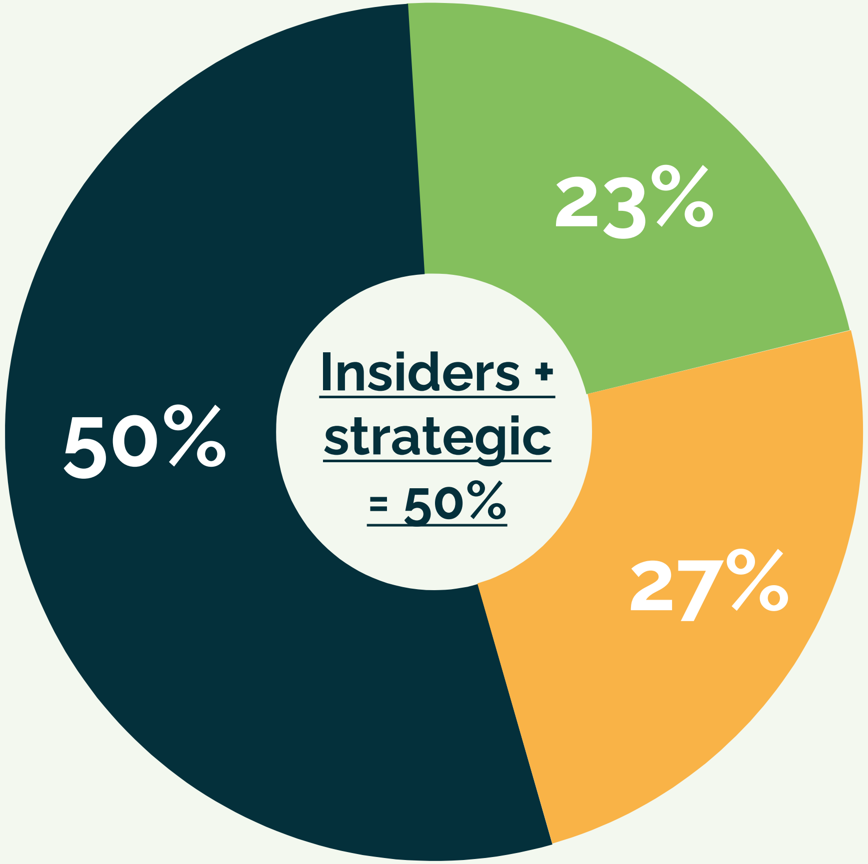
Director

- Mining executive with 10+ years' experience, delivering on- the-ground commercial, logistical, and strategic execution across Colombia.

CAPITAL STRUCTURE SUMMARY

Quimbaya

Active Management buys in open market



Shares		
Management, Directors	19,9 million	23%
Strategic Investors & HNWI	~22.0 million	26%
Float	~42.3 million	50%
Total Shares Outstanding (basic)	**~84.2 million**	**100%**
Officers, Directors & Advisors options(1)	8.1 million	
Officers, Directors & Advisors RSUs	3.1 million	
Warrants	~35 million	
Total Outstanding (Fully diluted)	**130.4 million**	

(1) Weighted Average Exercise Price: $0.522
Information as of July 16, 2026

APPENDIX

MAITAMAC (33,000+ HECTARES)

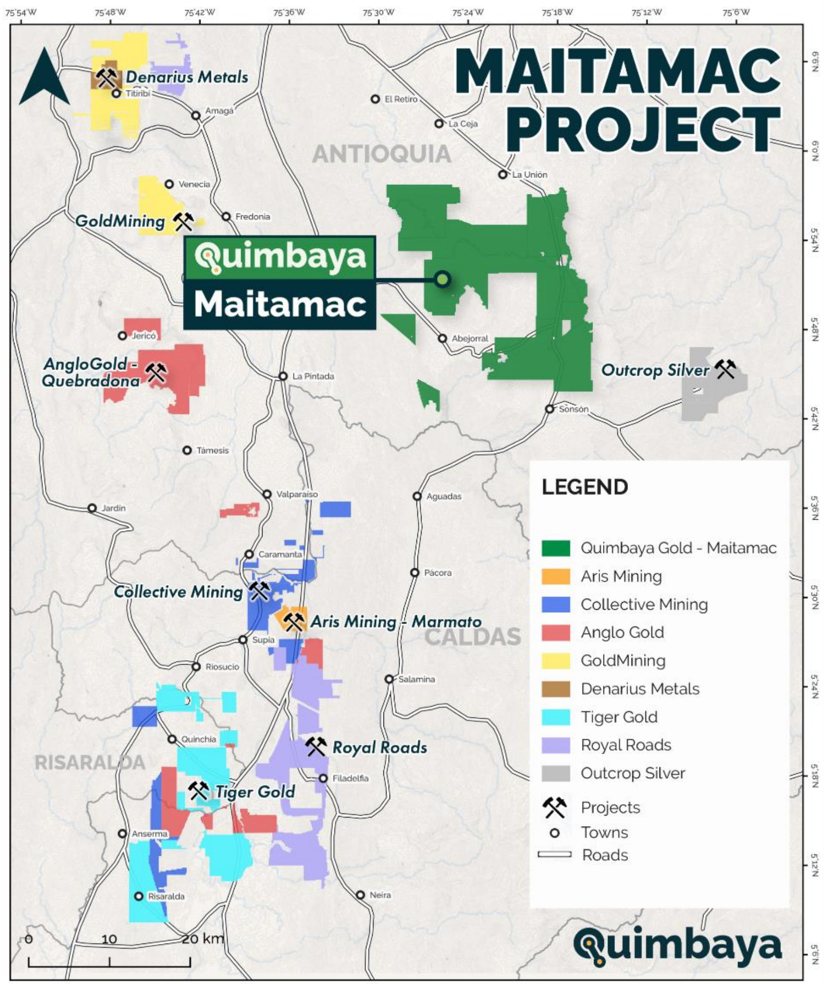
Quimbaya

Multi-target potential:
- Orogenic vein systems
- Porphyry targets

Early-stage exploration
Presence of historical mines & artisanal miners

Pipeline of future discovery targets

Provides Quimbaya with additional flexibility & future potential value creation



BERRIO (8,000+ HECTARES)

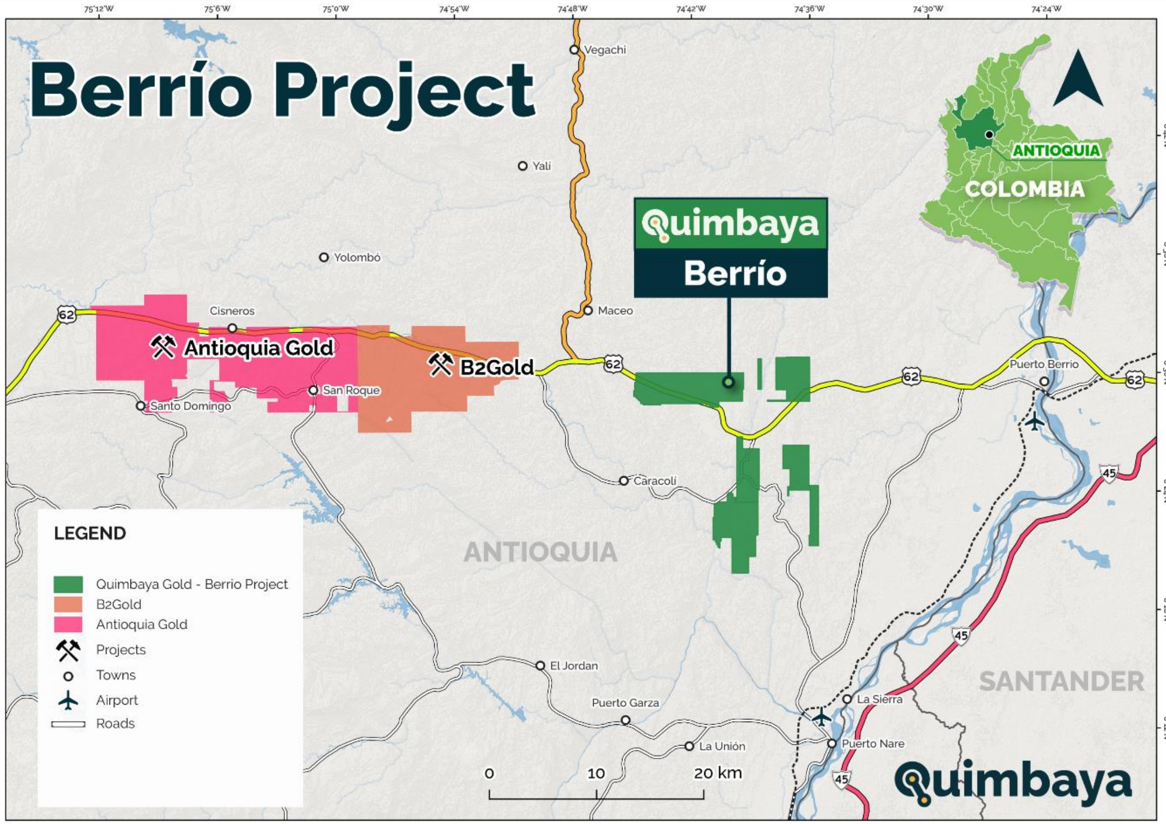
Quimbaya

Historical production area

Known mineralization
Orogenic gold vein system

Exploration upside remains

Lower-risk exploration with known mineralization



Provides Quimbaya with additional flexibility & future potential value creation
